# FOB-Solutions
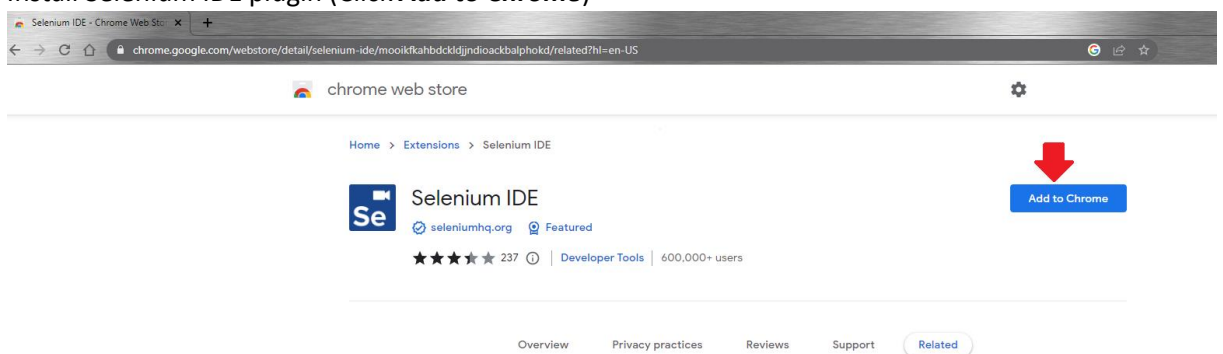

This is the instruction for running the automated tests.

**Please note that in Scenario_2, after successfully adding the place to 'Collections' and checking if it`s there, test will remove it from that collection and log out the user.*
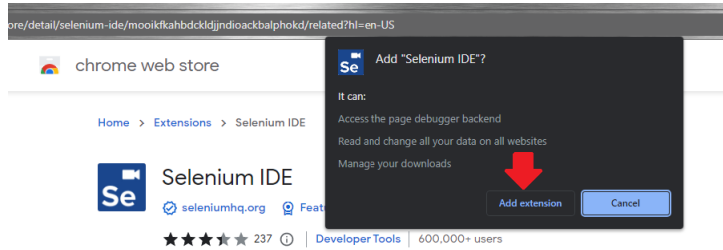

1. Download zipped ***FOB-Solutions.git*** repository and extract the files to the directory according to Your preferences.

2. Open Chrome browser
3. Go to: https://chrome.google.com/webstore/detail/selenium-ide/mooikfkahbdckldjjndioackbalphokd
4. Install Selenium IDE plugin (Click **Add to Chrome**)
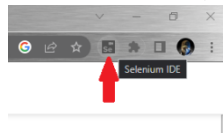

5. On popup banner click *Add extension*

6. Hit the *puzzle icon* in the top right corner of Your Chrome browser

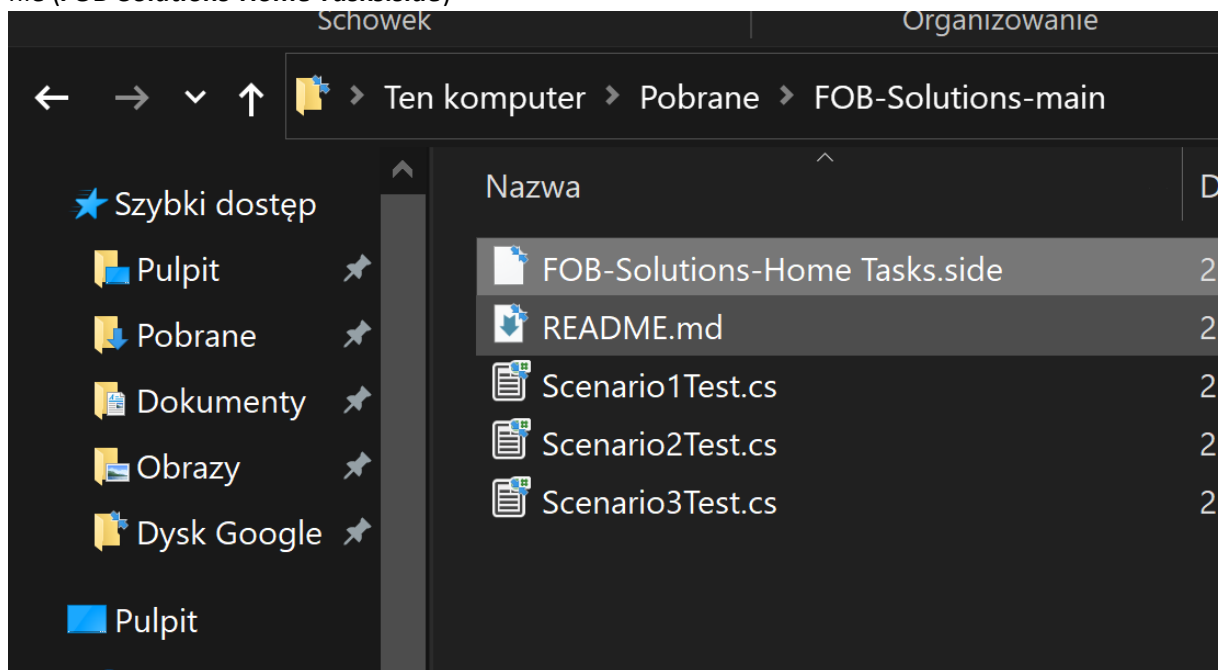

7. Pin *Selenium IDE* to Your plugins bar

8. Click on *Se icon* (Selenium IDE)

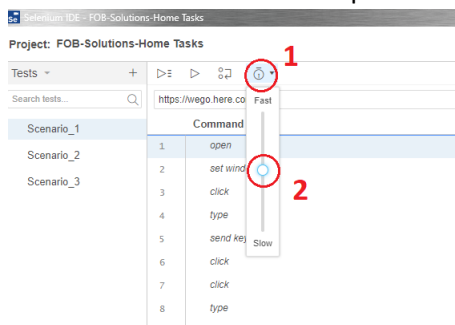

9. Click *Open an existing project*

10. Browse Your files and double click on the file You just downloaded and extracted from ZIP file (**FOB-Solutions-Home Tasks.side**)

11. Click the **stopwatch icon** on left top of the screen and set the test execution speed somewhere in the middle of presented range

12. Hit **Ctrl+Shift+R** to run all tests
